Important Issue Pending for the June Election.

APPROPRIATION BILL IS UP

To Issue \$25,000 Per Annum and Build Her Own Military Quarters Rather Than Pay Out Useless Thousands.

PORTLAND, April 18 (Special) .-"Does is pay to have a landlord?" That world-old question of economy is being asked by Oregon National Guardsmen all over the State. Answer that question, they say, and you have expressed your views on the Armory bill, which is to be voted on at the June election.

"Under the present arrangement the State is in the position of a man who has another's roof over his head, so far as armories are concerned," said Adjutant-General W. E. Finzer in an interview toda you the subject of the Armory bill. "The State not ony suffers the inconvenience of being a tenant but is paying out thousands of dollars in rents that should be going to the construction of pomanent state armories.

"Leaving aside the patriotic motives, which should cause every voter to lend all support to the National Guard, now a part of the first of National defense, the economic aspects of the bill should serve to carry it at the June election. At the present time Oregon has rented armories in 12 cities outside Portland. These armories are not suitable for military purposes and yet they cost the state \$5000 per year.

"The Armory bill sets aside \$25,000 per year for four years for the building of permanent armories. Thus the total appropriation is \$100,000. It doesn't take much figuring to show that in a few years the State would be ahead on the deal and that the armory bill, aside from providing a necessity, makes the way for a good investment."
